

For chassis cab or chassis double cab, equipped with pick-up or tipper, ACT proposes a tarpaulin with a solid support, that can possibly be equipped with a roof-rack that can continue over top of the cabin with a distance of \pm one meter.

Specifications:

- Support painted in black or hot dip galvanized
- Standard we supply a grey tarpaulin, but they also available in various RAL colors, even in grey metallic.
- The application of publicity on the surface of the tarpaulin is not a problem.
- The tarpaulins can be opened on the three sides and are provided with two lateral rows of planks.
- In the standard version, the structure has free height of 1800 mm on the 3 sides, any other height can be delivered on request.
- The optional roof-rack will be made out of aluminium or out of hot dip galvanized steel

Options:

- Plastic windows
- Opening at the front (long loads)
- Curtain systems and sliding roof
- Spoiler
- Publicity
